INTRODUCTION

The Commissioner of the Georgia Department of Revenue is charged by law with the annual valuation of the motor vehicles subject to taxation in this state. This manual was prepared by the Motor Vehicle Division of the Georgia Department of Revenue and contains the official assessments and the assessment procedures to be followed for the 2014 tax year.

The Department utilizes a model identification method that permits precise assignment of market values to vehicles through the use of a <V>aluation <ID>entification number (VID) to all vehicles that have the standardized Vehicle Identification Number (VIN) adopted by the automotive industry in 1981.

Under this uniform valuation system, the tax value for motor vehicles will be facilitated by the assignment of a VID if possible, otherwise by the assignment of a <O>riginal <B>ill of <S>ale (OBS) Code.

Explanation of VID Number

All of the vehicle models in this manual have been assigned a non-repeating VID number to uniquely identify each one for tax purposes. The VID consists of six digits, the first five representing a serialized number between 10001 and 99999, and the last one representing the year of manufacture of the vehicle (actually it is the 10th digit of the VIN).

Each year the Department will make available a computer file of all the VID's that have been assigned to each model along with the value assigned to each model, thereby permitting an ongoing valuation placement technique.

Explanation of OBS Codes

All vehicles manufactured before 1981, all recreational vehicles, buses, commercial trucks, commercial and homemade trailers will be uniformly valued using a OBS code (formally known as tax code). In contrast to the VID, the OBS code is not a unique number. The OBS code is a six digit code derived from the original cost of the vehicle and an appropriate depreciation table.

The first digit of the OBS code is always a zero. The next four digits of the OBS code represent the original Bill Of Sale cost divided by 10 or 100 and rounded to a whole number. The four digits for most vehicles is the MSRP divided by 100. In the case of motorcycles and small utility trailers, greater precision is obtained by dividing the MSRP by 10 to arrive at the numeric portion of the OBS code.

This seemingly complex system is simplified by the addition of a letter to the end of the five digits to indicate both the depreciation schedule that is appropriate for the vehicle and whether the MSRP has been divided by 10 or 100. An OBS code may be easily distinguished from a VID by noting that the first digit is a zero or alternately by observing that OBS codes are always less than 10000 and VID's are always greater than 10000.

Vehicle models 1986 and older using standard OBS codes rather than VIDs for tax identification purposes will be valued by using the minimum depreciation by the state's motor vehicle pre-billing system. If a county determines an alternative value is needed, the county may use the special OBS code "F". This will place a fixed value on the vehicle. For example, a code of 00050F will place a value $2,000 on a vehicle (50 * 100 * 40% = $2,000).

OBS codes will always be created by the local county taxing authority. The State does not create OBS codes.

The chart of possible values for the letter suffix on the OBS code and the corresponding meaning is listed below:

Vehicle Description	Code	Multiplier
Compact Autos	A	100
Mid -Sized Autos	B	100

The 184 days or more requirement of this subsection shall mean the cumulative total number of days during such calendar year, which days may be consecutive.

(2) (A) Each motor vehicle owned by a resident of this state shall be returned in the county where the owner claims a homestead exemption or, if no such exemption is claimed, then in the county of the owner's domicile or, if the motor vehicle is primarily used in connection with some established business enterprise located in a different county, in the county where the business is located.

(b) Notwithstanding subsection (a) of this Code section, all antique and hobby or special interest motor vehicles, as defined in Code Section 48-5-440, shall, notwithstanding true fair market value if any, be deemed by the commissioner to have a fair market value of $100.00 in the uniform evaluation prepared and distributed annually by the commissioner.

The term "disabled veteran", as used herein, means any wartime veteran who was discharged under honorable conditions and who has been adjudicated by the Veterans Administration of the United States as being 100 percent totally and permanently disabled and entitled to receive service connected benefits and any veteran who is receiving or who is entitled to receive a statutory award from the Veterans Administration for:

DETERMINATION OF VALUATIONS ON COMMERCIAL VEHICLES

Beginning for tax year 2014, all vehicles registered under the International Registration Plan (IRP) are taxed and registered at the State rather than taxed at the county and registered at the State as in the past. These vehicles are now subject to an alternative ad valorem tax at the time they pay their IRP fees.

Commercial vehicles not registered under IRP are still valued at the county level for ad valorem tax using the depreciation table. However, any vehicle purchased on or after March 1, 2013 was subject to the Title Ad Valorem Tax (TAVT). Chassis type vehicles should have the body value added for an accurate ad valorem taxable value.

GENERAL

Special Equipment Assessment Procedure

The values listed in this manual do not include special equipment that may be added to the vehicle and should not be used if such additions have been made. In such instances, the fair market value of the vehicle with special equipment should be obtained from a Bill of Sale or other reputable market guide and assessed at 40%. If special equipment has been added to a vehicle, the special equipment should be assessed at 40% of its Fair Market Value. The special equipment assessment and the assessment from this manual for the base vehicle should be combined to arrive at an assessment for the vehicle with the special equipment.

An OBS code should be assigned to the vehicle to allow for future valuation by the Department of the vehicle. Add the MSRP of the vehicle to the cost new of the special equipment to arrive at a total cost new of the vehicle and equipment. Then take the following step to arrive at the OBS code:

(1) If the vehicle is a light-duty truck, divide the total cost new of the vehicle and equipment by 100 and add the letter 'E' to the resulting three numeric digits. For example, a truck MSRP was $28,200 and the special equipment cost new was $1,800, therefore the total cost new of truck and equip is $31,000. Enter 31,000 as the vehicle's value in GRATIS with the value as "M" for MRSP, vehicle type "E", and "P" for a permanent OBS code.

(2) If the vehicle is a heavy-duty truck with special equipment, follow the same procedure as outlined in #1 above except use the letter 'W' or 'I' as the vehicle's type.

All special equipment shall be depreciated at the same rate as the vehicle to which it is added.

The Department will normally compute a VID for the purpose of future valuation of vehicles unless the tax commissioner has entered a permanent OBS code in GRATIS, in which case the OBS code will be used instead.

Procedure for Determining Value of Unlisted Vehicles

To obtain the assessed value of any automobile not listed, including historical vehicles, determine the fair market value determined by the Bill of Sale or by a reputable used car market guide and enter this value into GRATIS as an "F" for fair market value. Use the appropriate vehicle type code and select either "P" or "O" for permanent or one-time use of the OBS code created. If the vehicle is a newer vehicle and this type of vehicle is usually listed, then an "O" should be used. If the vehicle is not normally valued by the State, then use an "P".

Recreational Vehicles - Procedures

Due to the variety of models and the limited number of recreational vehicles in the state, the Revenue Department does not provide an assessment schedule of this type vehicle. Instead, the Department has established the following uniform procedures to be followed when determining the assessments of recreational vehicles.

Recreational vehicles can be assigned an OBS code and value one of 2 methods. The preferred method is to use a reliable bill of sale from the taxpayer. If the vehicle is new, then a code can be created by entering the purchase price as the "M" MSRP value, vehicle type "R", and "P" for a permanent code. If the RV is used then follow the same procedure only using "F" for the fair market value.

The other method is to use a reliable market guide such as the NADA Recreational Vehicle Appraisal Guide. Using a guide such as this one can obtain the MSRP or "suggested list" of the vehicle in question. Once this information has been obtained, then this value can be entered in GRATIS as "M" for MSRP to obtain an OBS code and current assessed value

Buses - Procedures

No assessment schedule by individual description has been prepared for this type of motor vehicle.

To obtain the assessed value of any bus, determine the fair market value determined by the Bill of Sale or by a reputable market guide and enter this value as "F" for fair market value in GRATIS.
