GENERAL INFORMATION: INCOME TAX

INTRODUCTION

Georgia law recognizes an election to file as an S Corporation under the provisions of the I.R.C. as defined in the income tax laws of Georgia, only in cases of nonresident shareholders who must complete Form 600S-CA. It also provides for the imposition of a Net Worth Tax.

WHAT'S NEW

Passive Loss/Capital Loss Deduction: A new line was added to Schedule 1, Computation of Georgia Taxable Income for this type of deduction. The deduction cannot exceed Passive Gains/Capital Gains included in Schedule 1 Line 3 of Form 600S. A schedule must be attached when this line is used. The schedule must include the Loss Year, Passive/Capital Loss from Federal Return, Passive/Capital Loss Apportioned to Georgia, Amount Utilized and the Passive/Capital Loss Carry Forward.

Current Year NOL Types: Normal Loss, Farm Loss and Insurance Loss checkboxes added to Schedule 10, Georgia NOL Carry Forward Worksheet.

Georgia Treatment of Research and Experimental Expenditures: Under the Federal Tax Cuts and Jobs Act, taxpayers must amortize research and experimental expenditures over five years for tax years beginning on or after January 1, 2022. However, Georgia does not follow the Federal rule and allows taxpayers to fully deduct research and experimental expenditures in the tax year they were paid or incurred for tax years beginning on or after January 1, 2022.

New Tax Credits: Qualified Foster Child Donation and Qualified Law Enforcement Donation credit. See Tax Summary for more details, <https://dor.georgia.gov/tax-credit-summaries>.

New Facilities Job Credit Force Majeure Update to Include Disease Pandemic: For projects certified after July 1, 2023 for the new facilities job credit but fail to meet the job or payroll maintenance requirements during the recapture period, force majeure relief from these maintenance requirements now includes pandemics. A pandemic is defined as an outbreak of disease that occurs over a wide geographic area, affects a significant proportion of the population, causes a substantial and unforeseeable threat to the public health, and materially impacts the ability to conduct business.

Quality Jobs Tax Credit: This credit has been revised, for more information, see Tax Credits section in this booklet or <https://dor.georgia.gov/tax-credit-summaries>.

FEDERAL TAX CHANGES/CONFORMITY, LEGISLATION, AND OTHER POLICY INFORMATION

Federal Tax Changes/Conformity with Federal Changes, New Legislation, and other Policy Information are available via the Department's website <https://dor.georgia.gov/taxes/tax-rules-and-policies/>.

FILING REQUIREMENTS

All corporations that own property, do business in Georgia, or derive income from Georgia sources are required to file a Georgia income tax return. Please round all dollar entries. Nonresidents only need to file a single consent in the year in

which the Subchapter "S" Corporation is first required to file a Georgia income tax return. For a Subchapter "S" Corporation in existence prior to January 1, 2008, the consent agreement must be filed for each shareholder in the first Georgia tax return filed for a year beginning on or after January 1, 2008. A consent agreement will also need to be filed in any subsequent year for any additional nonresident who becomes a shareholder of the Subchapter "S" corporation in that year.

Georgia resident shareholders of Subchapter "S" Corporations may make an adjustment to Federal adjusted gross income for Subchapter "S" income where the Subchapter "S" election is not recognized for Georgia purposes or by another state. The adjustment is allowed in order to avoid double taxation on this type of income. Therefore, this adjustment will be allowed only for the portion of income on which tax was actually paid by the corporation to Georgia or to another state(s).

ELECTRONIC FILING REQUIREMENTS

Taxpayers that remit payments by electronic funds transfer, whether on a mandatory or voluntary basis, must file all associated returns electronically. Also, a nonindividual income tax return must be electronically filed when the Federal counterpart of such return is required to be filed electronically pursuant to the Internal Revenue Code of 1986 or Internal Revenue Service regulations. Finally, a return is required to be electronically filed if the return generates, allocates, claims, utilizes, or includes in any manner a series 100 credit (see page 12, etc.).

TWO-DIMENSIONAL (2D) BARCODE FORMS

The Department of Revenue has given approval to certain software companies to produce tax programs that include a 2D barcode. A list of these companies is available on our website at dor.georgia.gov.

NOTE: The Department of Revenue encourages the use of 2D barcode returns; however, we neither support nor recommend any software company. Returns with a 2D barcode should be mailed to the address indicated by the software program.

CORPORATE PARTNERS OF PARTNERSHIPS

A corporation will be considered to own property in Georgia, do business in Georgia, or have income from Georgia sources whenever the corporation is a partner, whether limited or general, in a partnership which owns property or does business in Georgia, or has income from Georgia sources.

DEFERRED COMPENSATION

A nonresident, who receives deferred compensation or income from the exercise of stock options that were earned in Georgia in a prior year is required to pay tax on the income, but only if the prior year's income exceeds the lesser of: 1) 5 percent of the income received by the person in all places during the current taxable year; or 2) \$5,000. However, the income is not taxed if Federal law prohibits the state from taxing it. Federal law prohibits state taxation of some types of retirement income including pensions as well as income received from nonqualified deferred compensation plans if the income is paid out over the life expectancy of the person or at least 10 years. An employer is required to withhold Georgia income tax on any amounts that are required to be included in the nonresident's income. See Regulation 560-7-4-.05 for more information.

PV CORP PAYMENT VOUCHER

If you owe taxes, mail your return and payment with Form PV-CORP. If you file electronically, mail Form PV-CORP with your payment to the address on the form. Do not use Form PV-CORP as a substitute for form IT-560C. Failure to properly complete and mail the PV-CORP could result in delayed or improper posting of your payment.

GENERAL INFORMATION: INCOME TAX (continued)

WHEN AND WHERE TO FILE

The return is due on or before the 15th day of the 3rd month following the close of the taxable year. This would be March 15th if filing on a calendar-year basis. If the due date falls on a weekend or holiday, the return shall be due on the next day that is not a weekend or a holiday. Returns should be mailed to Georgia Department of Revenue, Processing Center, P.O. Box 740391, Atlanta, Georgia 30374-0391.

RELATION TO FEDERAL RETURN

The Georgia return correlates to the Federal return in most respects (see page 3 for a link to the Federal Tax Change Section on the website). The accounting period and method for the Georgia return must be the same as on the Federal return. A complete copy of the Federal return and all supporting schedules must be attached to the Georgia return.

If a Federal audit results in a change in taxable income, the taxpayer shall file an amended Form 600S return reflecting the changed or corrected net income within 180 days of the final IRS determination. The return should be mailed to: Processing Center, Georgia Department of Revenue, P.O. Box 740391, Atlanta, Georgia 30374-0391. Further, if the changes result in a refund, the refund must be claimed within one year of the date the changes are submitted. Please check the "Amended due to IRS Audit" box on page 1 of Form 600S.

S CORPORATION REPRESENTATIVE

On Page 1 of Form 600S indicate the S Corporation representative. See Regulation 560-7-3-.11 for more information.

QUALIFIED SUBCHAPTER S SUBSIDIARY (QSSS)

For income tax purposes, Georgia follows the Federal treatment for a Qualified Subchapter S Subsidiary (QSSS). However, the QSSS and its parent must file separate net worth tax returns. If the parent is not registered with the Secretary of State, and does not do business or own property in Georgia (other than through the QSSS), they would not be required to file a net worth tax return. If this is the case, please check the "QSSS Exempt" box on page 1 of the Form 600S.

Qualified Subchapter S Subsidiary (QSSS) Credit Instructions. In addition to filing the net worth tax return, the QSSS should complete Schedule 11 if the QSSS generates credits or has credits assigned, allocated, or transferred to it. Also, Schedule 12 should be used to transfer the credits to the parent S Corporation and Schedule 13 should be completed if applicable. This is necessary so that the returns can be processed and the credits flow to the proper taxpayer.

FREQUENTLY ASKED QUESTIONS

Frequently asked questions regarding S corporations, corporations, partnerships, and LLCs are available on our website at <https://dor.georgia.gov/help/faqs>.

PUBLIC LAW 86-272

Public Law 86-272 provides an exemption from taxation in the following circumstances. If the employee merely solicits orders for sales of tangible personal property that are sent outside of Georgia for approval and are filled and shipped from outside Georgia (from a state other than Georgia where the employee's corporation conducts its business) then the exemption from taxation may apply. It must be noted that if an employee goes beyond mere solicitation then the exemption does not apply. Additionally, the Public Law 86-272 exemption does not apply to the net worth tax, so a Form 600 or 600S must be filed with Georgia and the net worth tax must be paid if due. Even when the exemption applies, we recommend that the corporation complete all schedules on the Georgia return relating to income tax and attach a copy of its Federal income

tax return. Attach a statement that indicates the Corporation's belief that it falls under the protection of Public Law 86-272. Additionally, they should check the box on page 1 of the form.

COMPUTING GEORGIA TAXABLE INCOME SCHEDULE 1

If an S Corporation is required to pay tax at the Federal level, it may be required to pay tax at the state level. This income would be apportioned to Georgia by multistate S Corporations. If you are claiming the Passive Loss/Capital Loss Deduction you must include a statement with the following: Loss Year, Passive/Capital Loss from the Federal Return, Passive/Capital Loss apportioned to Georgia, Amount utilized and the Passive/Capital Carry Forward.

ADJUSTMENTS TO FEDERAL INCOME OF SHAREHOLDERS

To determine total income for Georgia purposes, certain additions and subtractions as provided by Georgia law are included in the Schedule 6 computation. Lines 8 and 10 of Schedule 6 provide for modifications required by Georgia law. The total of the additions to Georgia income should be indicated on Schedule 6 and listed on Schedule 7. Total subtractions from Federal income should be indicated on Schedule 6 and listed on Schedule 8. The more commonly used items are listed in each of these schedules.

A corporation must add back all intangible expense and related interest expense directly or indirectly paid to a related member. All such expense must be listed as an addition to Federal income even if the taxpayer qualifies for an exception. If the taxpayer qualifies for a full or partial exception, Form IT-Addback **must** be completed in order to take a subtraction on Schedule 8 for all or any portion of the addition listed on Schedule 7.

A corporation must add back all captive REIT expenses directly or indirectly paid to a related member. All such expenses must be listed as an addition to Federal income even if the taxpayer qualifies for an exception. If a taxpayer qualifies for a full or partial exception, Form IT-REIT must be completed.

A taxpayer must addback payments of more than \$600 in a taxable year made to employees who are not authorized employees and who are not excepted by O.C.G.A. § 48-7-21.1. An authorized employee is someone legally allowed to work in the United States.

Additionally, adjustments due to Federal tax changes should be reported as stated on the Department's website (see page 3).

U.S. obligation income subtracted must be reduced by direct and indirect interest expense. To arrive at such reduction, the total interest expense is multiplied by a fraction, the numerator of which is the taxpayer's average adjusted basis of the U.S. obligations, and the denominator of which is the average adjusted basis of all assets of the taxpayer. See Georgia Regulation 560-7-3-.10.

Taxpayers who are parties to state contracts may subtract from Federal taxable income or Federal adjusted gross income 10% of qualified payments to minority subcontractors or \$100,000, whichever is less, per taxable year. The Commissioner of the Department of Administrative Services maintains a list of certified minority subcontractors for the Revenue Department and general public. To register as a minority subcontractor or to view the list, visit doas.ga.gov/state-purchasing/supplier-services.

A corporation may subtract federally taxable interest received on Georgia municipal bonds designated as "Build America Bonds" under Section 54AA of the Internal Revenue Code of

GENERAL INFORMATION: INCOME TAX (continued)

1986. "Recovery Zone Economic Development Bonds" under Section 1400U-2 of the Internal Revenue Code or any other bond treated as a "Qualified Bond" under Section 6431(f) of the Internal Revenue Code are considered "Build America Bonds" for this purpose.

A corporation may subtract federally taxable interest received on Georgia municipal bonds issued by the State of Georgia and certain authorities or agencies of the State of Georgia for which there is a special exemption under Georgia law from Georgia tax on such interest.

Georgia follows the provisions of I.R.C. Section 163(j) as they existed before the 2017 Tax Cuts and Jobs Act.

Georgia does not follow I.R.C. 174 under the Tax Cuts and Jobs Act.

See Georgia Code Section 48-7-21 for additional adjustments.

ALLOCATION AND APPORTIONMENT OF INCOME SCHEDULES 5, 6, and 9

If any corporation, domestic or foreign, does business or owns property both within and outside Georgia, the Georgia ratio as computed on Schedule 9 should be used to compute Georgia taxable income for nonresidents. Schedule 6 reflects flow-through income from the Federal return, which is taxable to the individual shareholders.

A resident shareholder is required to report their full share of corporate income or loss. A nonresident shareholder, however, is required to report only their share of allocated and apportioned income as computed on Schedule 5. Please also see the Federal Tax Changes section on the Department's website for separately stated shareholder adjustments (see page 3 for the link).

General instructions for computing the apportionment ratio and apportioned and allocated income are listed below. If the business income of the corporation is derived from Georgia sources, from property owned or business done within the State, and derived in part from property owned or business done outside the State, the tax is imposed only on that portion of the business income which is reasonably attributable to Georgia sources and property owned and business done within the State, to be determined as follows:

(1) Interest received on bonds held for investment and income received from other intangible property held for investment are not subject to apportionment. Rentals received from real estate held purely for investment purposes and not used in the operation of the business are also not subject to apportionment. All expenses connected with the interest and rentals from such investments are likewise not subject to apportionment but must be applied against the investment income. The net investment income from intangible property shall be allocated to Georgia if the situs of the corporation is in Georgia or the intangible property was acquired as income from property held in Georgia, or as a result of business done in Georgia. The net investment income from tangible property in Georgia shall be allocated to Georgia.

(2) Gain from the sale of tangible or intangible property not held, owned, or used in connection with the trade or business of the corporation nor for sale in the regular course of business, shall be allocated to the State if the property held is real or tangible personal property situated in the State, or intangible property having an actual situs or a business situs within the State. Otherwise, such gain shall be allocated without the State.

(3) When net income of the above classes has been separately allocated and deducted, the remainder of the net business

income shall be apportioned by application of the following:

ONE FACTOR FORMULA

(a) **Gross Receipts Factor:** The gross receipts factor is the ratio of gross receipts from business done within this State to total gross receipts from business done everywhere.

When receipts are derived from the sale of tangible personal property, receipts shall be deemed to have been derived from business done in this State if they were received from products shipped or delivered to customers within this State.

When receipts are derived from business other than the sale of tangible personal property, receipts shall be deemed to have been derived from business done in this State if they were received from customers within this State, or if they are otherwise attributable to this State's marketplace.

- For tax years beginning on or after January 1, 2008, the Georgia apportionment ratio shall be computed by applying only the gross receipts factor. See Georgia Comp. Rules and Regulations 560-7-7-.03 for specific details.
- For tax years beginning on or after January 1, 2006, a company whose net income is derived from the manufacture, production, or sale of tangible personal property and from business other than the manufacture, production, or sale of tangible personal property must include gross receipts from both activities in its receipts factor.
- For tax years beginning on or after January 1, 2006, a company whose net income is derived from business other than the manufacture, production, or sale of tangible personal property only includes in its receipts factor gross receipts from activities which constitute the company's regular trade or business.

(b) **Apportionment of Income:** Business Joint Ventures and Business Partnerships. A corporation or partnership that is involved in a business joint venture, or is a partner in a business partnership, must include its pro rata share of the joint venture's or partnership's gross receipts values in its own apportionment formula.

CREDIT USAGE AND CARRYOVER (SCHEDULE 11)

Enter the information as specified on each line of Schedule 11. With respect to Line 10, the "Tax Credits" summary in this booklet includes information regarding which credits can be sold.

AMENDED RETURNS

Georgia has no separate form for filing an amended return. To amend a return, check the amended return box on Form 600S. A copy of the Federal Form 1120S or Federal audit adjustments must be attached. The amended return should be mailed to Georgia Department of Revenue, Processing Center, P. O. Box 740391, Atlanta, Georgia 30374-0391. Amended returns are required to be sent electronically if the original return was filed electronically.

Georgia House Bill 849 was enacted in 2017. This bill modifies Code Section 48-7-53 and provides for Georgia S Corporation audit adjustments and related appeals effective for taxable years beginning on or after January 1, 2017 and earlier if the Department and the S Corporation agree. For a Georgia S Corporation audit, an S corporation may elect to pay the tax due on behalf of its shareholders by checking the box on page 1 of Form 600S. This election can be made on an original or amended return filed before the audit starts or at the time of the audit. If the election is made, the S Corporation will not file an amended return, instead the Department will issue a notice to the S Corporation to facilitate the collection of the tax. If the election is not made, the S Corporation and its shareholders must file amended returns.

GENERAL INFORMATION: INCOME TAX (continued)

With a Federal S Corporation adjustment, the S Corporation is required to file an amended Georgia return (please check the "Amended due to IRS Audit" box on page 1 of Form 600S).

CLAIMS FOR REFUNDS

A claim for refund of tax paid must be made within three years from the later date of either the payment of the tax or the due date of the income tax return (including extensions which have been granted).

LATE PAYMENT PENALTY

A taxpayer having an extension must prepay the Georgia tax due using Form IT-560C. Credit for this prepayment should be claimed on Form 600S, Schedule 4, Line 2. If tax is not paid by the statutory due date of the return, a late payment penalty of 1/2 of 1% per month (up to 25%) will accrue until the tax is paid. This penalty will accrue from the statutory due date regardless of any extension for filing the return. Late payment penalty is not due if the return is being amended due to an IRS audit; check the "Amended due to IRS Audit" box on page 1 of Form 600S.

PENALTIES AND INTEREST

The Georgia Code imposes certain penalties as follows:

- Delinquent filing of a return—5% of the tax not paid by the original due date for each month or fractional part thereof up to 25%.
- Failure to pay tax shown on a return by the due date—1/2 of 1% of the tax due for each month or fractional part thereof up to 25%. Failure to pay tax penalty is not due if the return is being amended due to an IRS audit.
- Negligent underpayment of tax—5% thereof.
- Fraudulent underpayment—50% thereof.
- Underpayment of estimated tax- see IT-611 Instructions Booklet for more information.

Note: The combined total of the penalty for delinquent filing of a return and failure to pay tax shown on a return cannot exceed 25% of the tax not paid by the original due date.

accrues at the rate of 12 percent annually. Interest that accrues for months beginning on or after July 1, 2016 accrues as provided by Georgia Code Section 48-7-81.

ELECTION TO PAY AT THE ENTITY LEVEL

A S Corporation may annually make an irrevocable election to pay income tax at the entity level instead of passing the income tax liability through to the shareholders. To make the election, the S Corporation must check the box, "S Corporation elects to pay the tax at the entity level", on the Form 600S by the due date or extended due date of the Form 600S.

The election to pay tax at the entity level is binding on all shareholders, including nonresident shareholders. A composite return is not required when the election is made. Any allocable shares of the electing S Corporation's income or loss included on the shareholders' Federal adjusted gross income must be adjusted on the shareholders' own Georgia income tax returns. The shareholders are not eligible to claim a credit for taxes paid to Georgia with respect to income taxed at the S Corporation level.

Tax attributes, including but not limited to credits and net operating losses, do not pass through to the shareholders but remain with the electing S Corporation regardless of whether an election is made for subsequent taxable years. However, an electing S Corporation may make an irrevocable election to pass through all or part of any credit, that is generated within the applicable statute of limitation period for the S Corporation, to its shareholders for the taxable year the credit is generated. The election to pass credits through to the shareholders is not available for the Qualified Education Expense Tax Credit, the Qualified Education Donation Credit, and the Qualified Rural Hospital Expense Tax Credit.

The electing S Corporation must make estimated tax payments in the same manner as a C Corporation. Estimated payments made by the shareholders are not eligible to be transferred to the electing S Corporation but can be used to compute the penalty on Form 600-UET as if the electing S Corporation had made such payments. See Code Section 48-7-21 and Regulation 560-7-3-.03 for more information.

GENERAL INFORMATION: NET WORTH TAX

INITIAL FILING AND DUE DATES

A new domestic or foreign corporation doing business or owning property in Georgia must file an initial net worth tax return on or before the fifteenth day of the third calendar month after incorporation or qualification. **The initial net worth tax return is based on the beginning net worth (Federal Schedule L) of the corporation and covers the tax period from the incorporation/ qualification date to the end of the year. If this return is for a short period of less than six months, the tax due is 50%. The initial net worth return cannot be combined with the initial income tax return because the due dates do not coincide.** Thereafter, an annual return must be filed on or before the fifteenth day of the third month following the beginning of the corporation's taxable period.

PENALTIES AND INTEREST

Penalty for delinquent filing is 10% of tax due. Penalty for delinquent payment is 10% of tax due. In addition, interest as specified on page 6 is due on delinquent payments from the due date until the liability is paid in full.

COMPUTATION OF TAX

The tax is graduated based on net worth (see page 7 for the table). In the case of new corporations, this is the beginning net worth. Thereafter, it is the net worth on the first day of the corporation's net worth taxable year. Net worth is defined to include issued capital stock, paid in surplus and retained earnings. Treasury stock should not be deducted from issued capital stock. Foreign corporations qualified to conduct business in Georgia are taxed based upon the portion of net worth employed within Georgia as computed on Schedule 3, using the ratio computed on Schedule 2. To compute the ratio, the property factors will reflect total balance sheet assets within Georgia and everywhere. This includes all intangible assets reflected on the Federal return such as accounts receivable. Gross receipts factors are determined per instructions on page 5. For net worth tax purposes, a foreign corporation is a corporation or association created or organized under the statutory laws of any nation or state other than Georgia.

Domestic corporations and domesticated foreign corporations are taxed based upon total net worth (100% ratio) and should not use the ratio computation in Schedule 2.

GENERAL INFORMATION: NET WORTH TAX^(continued)

For net worth tax purposes, a domestic corporation is a corporation or association created or organized under the statutory laws of Georgia. A domesticated foreign corporation is a foreign corporation which has agreed under the provisions of Georgia law to be treated as a domestic corporation and to be taxed based upon total net worth.

A dormant corporation must file a net worth tax return and pay the tax, if applicable, to retain its charter. A foreign corporation admitted into Georgia must file a net worth tax return until it has withdrawn from Georgia. A corporation with a deficit net worth must file a return but does not owe the net worth tax. A corporation that has been liquidated and is filing its final income tax return is not required to file a net worth tax return, nor is it entitled to a refund of previously paid net worth tax.

NET TAX DUE OR OVERPAYMENT

Schedule 4 provides for the computation of net tax due or the net overpayment of the two taxes. Compute any penalty and interest due for the respective taxes and enter the amounts on the applicable lines.

QUALIFIED SUBCHAPTER S SUBSIDIARY (QSSS)

For income tax purposes, Georgia follows the Federal treatment for a QSSS. However, the QSSS and the parent must file separate net worth tax returns. If the parent is not registered with the Secretary of State and does not do business or own property in Georgia (other than through the QSSS) they would not be required to file a net worth tax return. Please check the "QSSS Exempt" box on page 1 of the 600S if the parent is not subject to net worth tax.

FEDERAL SCHEDULE L REQUIREMENT

Schedule L must be completed on the Georgia copy of the Federal return even if it is not required for Federal purposes.

TREATMENT OF SHORT PERIOD NET WORTH TAX RETURN

All corporations filing a short period Georgia income tax return for any reason other than filing an initial or final return shall compute the net worth in accordance with the following instructions:
The net worth tax shall be computed based upon the net worth per the ending balance sheet of the short period return. The tax is then prorated based on the number of months included in the short period return.

Note: Any short periods ending on the 1st through the 15th day of the month are backed up to the last day of the preceding month. Years ending on the 16th day or later are moved forward to the last day of that month.

EXAMPLE: Corporation A files a three-month short period return ending March 31, 2018. The Georgia taxable net worth per the March 31, 2018 balance sheet is \$900,000. The Georgia net worth tax is computed as follows: Tax per scale \$500.00 x 3/12 = \$125.00 net worth tax due.

GENERAL INFORMATION

EXTENSION INFORMATION FOR CORPORATIONS

O.C.G.A. § 48-7-57 provides that a taxpayer need not apply for a Georgia extension if the taxpayer applies for and receives an automatic six (6) month extension to file the Federal income tax return. If the return is received within the time extended by the Internal Revenue Service, no late filing penalties will be incurred. **Georgia law prohibits granting an extension for more than six months from the due date of the return.**

Failure to attach a copy of the Federal extension will result in the assessment of late filing penalties! If you do not need a Federal extension, use Form IT-303 to request a Georgia extension if necessary.

If an extension was granted but the tax was not paid by the statutory due date, late payment penalties will be assessed until the tax is paid (income tax at 1/2 of 1% per month up to 25% of the tax due; net worth tax at 10%). Also, interest will be assessed as specified on page 6 from the statutory due date until the tax is paid in full. Late payment penalties and interest accrue from the statutory due date regardless of an extension.

A taxpayer having an extension must also prepay the Georgia Tax. Form IT-560C must be included with the remittance. Credit for the prepayment should be claimed on Form 600S, Schedule 4, Line 2. An extension of time to file does not alter the interest or penalty charge for late payment of tax.

NOTE: Check the “Extension” box on Form 600S if a Federal or Georgia extension was granted. Failure to check the extension box will result in assessment of a late filing penalty.

ANNUAL REGISTRATION WITH THE SECRETARY OF STATE

All Georgia corporations and foreign corporations that “qualify” to do business in Georgia must file an annual registration with the Secretary of State. Registration, including the fee, is due between January 1 and April 1. The Secretary of State will send a notice to the corporation’s principal office address in early January.

Foreign corporations (those formed in a state other than Georgia) should determine the need to obtain a Certificate of Authority by reviewing O.C.G.A. § 14-2-1501. The statute can be read and an application obtained at sos.ga.gov. Annual registration and certificate of authority obligations are separate from any filings with the Department of Revenue.

INSTRUCTIONS FOR NONRESIDENT SHAREHOLDERS

Nonresident shareholders of corporations doing business both within and outside Georgia shall compute their portion of the corporation's allocated and apportioned income from the schedules on Form 600S. The Georgia net income of nonresidents computed on Schedule 5, Line 7 should be multiplied by the percentage of stock owned. The result of this calculation yields the beginning taxable income for the nonresident which should be reported on the Georgia individual tax return. This beginning taxable income should be adjusted for the separately stated items mentioned in the "Federal Tax Changes" section on the Department's website and the "Adjustments to Federal Income of Shareholders" section on page 4. Under Sections 48-7-21 and 48-7-27 of the Georgia Code thereunder, all nonresident shareholders must execute an agreement on Form 600S- CA wherein the shareholders agree to pay Georgia income tax on their portion of the corporation's Georgia taxable income or the S Corporation election will be terminated by the Commissioner (see page 3 for more information).

Special Note: Any S Corporation with nonresident members shall be subject to withholding tax unless a composite return, Form IT-CR, is filed, the S Corporation makes an irrevocable election to pay income tax at the entity level or the aggregate annual member's share of the taxable income sourced to Georgia is less than \$1,000.00. However, if the shareholder has a properly executed 600S-CA, withholding is not due provided the shareholder reports the income and pays the tax. Permission to file a composite return is not required. To ensure Georgia's recognition of your S Corporation election, attach a properly completed Form 600S-CA for each nonresident shareholder to Form 600S when it is filed, even if a composite return has been filed. Please see Page 3 for details as to when and how often the 600S-CA is required. If applicable, please check the "Composite Return Filed" box on Form 600S, Page 1. **For composite return information and / or forms call 1-877-423-6711.**

CORPORATION ESTIMATED INCOME TAX

For Georgia residents, income on most S Corporations flows through to the individual shareholders and estimated tax is paid accordingly at the individual level. If your S Corporation must pay estimated tax at the corporate level, see the Estimated Income Tax section of this booklet.

In addition to filing the net worth tax return, the QSSS should complete Schedule 11 if the QSSS generates credits or has credits assigned, allocated, or transferred to it. Also, Schedule 12 should be used to transfer the credit to the parent S Corporation and Schedule 13 should be completed if applicable. This is necessary so that the returns can be processed and the credits flow to the proper taxpayer.

Disregarded Single Member LLC Credit Instructions. If the taxpayer owns or is owned by a disregarded single member LLC, the single member LLC should be disregarded for filing purposes. All credits should be claimed on the owner's return. All tax credit forms should be filed in the name of the single member LLC but included with the owner's return. This is necessary so that the returns can be processed and the credits flow to the proper taxpayer.

- 102 Employer's Credit for Approved Employee Retraining.** The retraining tax credit allows employers to claim certain costs of retraining employees to use new equipment new technology, or new operating systems. For tax years beginning on or after January 1, 2009, approved retraining shall not include any retraining on commercially, mass produced software packages for word processing, database management, presentations, spreadsheets, e-mail, personal information management, or computer operating systems except a retraining tax credit shall be allowable for those providing support or training on such software. The credit is calculated at 50% of the direct costs of retraining full-time employees, up to \$500 per employee per approved retraining program per year. For tax years beginning on or after January 1, 2009, there is a cap of \$1,250 per year per full-time employee who has successfully completed more than one approved retraining program. The credit may be utilized up to 50% of the taxpayer's total state income tax liability for a tax year. For tax years beginning on or after January 1, 2009, the credit must be claimed within one year instead of the normal three-year statute of limitation period. Credits claimed but not used may be carried forward for 10 years. For a copy of the Retraining Tax Credit Procedures Guide, contact the Technical College System of Georgia. This credit should be claimed on Form IT-RC, with Program Completion forms signed by Technical College System of Georgia personnel attached. For more information, refer to O.C.G.A. §48-7-40.5.
- 103 Employer's Jobs Tax Credit.** This credit provides for a statewide job tax credit for any business or headquarters of any such business engaged in manufacturing, warehousing and distribution, processing, telecommunications, broadcasting, tourism or research and development industries, but does not include retail businesses. If other requirements are met, job tax credits are available to businesses of any nature, including retail businesses, in counties recognized and designated as the 40 least developed counties.

Tier Designation	County Rankings	New Jobs Created	Credit Amount
Tier 1	1 through 71	5 or more*	\$3,500
Tier 2	72 through 106	10 or more	\$2,500
Tier 3	107 through 141	15 or more	\$1,250
Tier 4	142 through 159	25 or more	\$750

Credits similar to the credits available in Tier 1 counties are potentially available to companies in certain less developed census tracts in the metropolitan areas of the state. Note that the average wage for each new job must be above the average wage of the county that has the lowest average wage of any county in the state. Also, employers must make health insurance available to employees filling the new full-time jobs. Employers are not, however, required to pay all or part of the cost of such insurance unless this benefit is provided to existing employees. For taxpayers that initially claimed this credit for any taxable year beginning before January 1, 2009, credits are allowed for new full-time employee jobs for five years in years two through six after the creation of the jobs. In Tier 1 and Tier 2 counties, the total credit amount may offset up to 100% of a taxpayer's state income tax liability for a taxable year. In Tier 3 and Tier 4 counties, the total credit amount may offset up to 50% of a taxpayer's state income tax liability for a taxable year. In Tier 1 counties and less developed census tracts only, credits may also be taken against a company's income tax withholding. To claim the credit against withholding, a business must file Form IT-WH as provided in the job tax credit regulation or as instructed by the Commissioner. A credit claimed but not used in any taxable year may be carried forward for 10 years from the close of the taxable year in which the qualified jobs were established. The measurement of the new full-time jobs and maintained jobs is based on averagemonthly employment. Georgia counties are re-ranked annually based on updated statistics. This credit should be claimed on Form IT-CA. An additional \$500 per job is allowed for a business located within a county that belongs to a Joint Development Authority per O.C.G.A. §36-62-5.1. For taxpayers that create a new year one under DCA regulations for any taxable year beginning on or after January 1, 2009, the following apply:

TAX CREDITS (continued)

1. The definition of a business enterprise now also includes a business or headquarters of a business that provides services for the elderly and persons with disabilities (only for the jobs credit provided pursuant to O.C.G.A. §48-7-40).
2. The credit may be claimed beginning with the year the job is created as opposed to the year after the job is created.
3. The credit may be claimed against withholding tax for a business enterprise engaged in a competitive project (as certified by the Department of Economic Development) which is located in a tier 2, 3, or 4 county.
4. The additional new full-time jobs created in the 4 years after the initial year shall be eligible for the credit.
5. The credit must be claimed within one year instead of the normal three-year statute of limitation period.

*For a business enterprise that creates a new year one under DCA regulations for any taxable year beginning on or after January 1, 2012, in tier 1 counties, the business enterprise must increase employment by 2 or more new full-time jobs for the taxable year to be eligible for the credit. See the Job Tax Credit law (O.C.G.A. §§ 48-7-40 and 48-7-40.1) and regulations for further information or refer to the Department of Community Affairs website.

For taxable years beginning in 2020 and 2021, taxpayers that claimed the Jobs tax credit in a taxable year beginning on or after January 1, 2019 and before December 31, 2019, have the option to utilize the number of new full-time jobs that the taxpayer claimed in the taxable year beginning on or after January 1, 2019 and before December 31, 2019; or calculate the number of new full-time jobs based on the number of full-time jobs created and maintained in that respective tax year.

- 104 Employer’s Credit for Purchasing Child Care Property.** Employers who purchase qualified child care property will receive a credit totaling 100% of the cost of such property. The credit is claimed at the rate of 10% a year for 10 years. Any unused credit may be carried forward for three years and the credit is limited to 50% of the employer’s Georgia income tax liability for the tax year. Recapture provisions apply if the property is transferred or committed to a use other than child care within 14 years after the property is placed in service. This credit should be claimed on Form IT-CCC100. For more information, refer to O.C.G.A. §48-7-40.6.
- 105 Employer’s Credit for Providing or Sponsoring Child Care for Employees.** Employers who provide or sponsor child care for employees are eligible for a tax credit of up to 75% of the employers’ direct costs. The credit may not exceed 50% of the taxpayer’s total state income tax liability for the taxable year. Any credit claimed but not used in any taxable year may be carried forward for five years from the close of the taxable year in which the cost of the operation was incurred. This credit should be claimed on Form IT-CCC75. For more information, refer to O.C.G.A. §48-7-40.6.
- 106 Manufacturer’s Investment Tax Credit. Based on the same Tier Ranking as the Job Tax Credit program.** It allows taxpayer that has operated an existing manufacturing or telecommunications facility in the state for the previous three years to obtain a credit against income tax liability. The credit is calculated on expenses directly related to manufacturing or to providing telecommunications services. Taxpayers must apply (use Form IT-APP) and receive approval before claiming the credit on the appropriate tax return. A taxpayer may not claim the job tax credit or the optional investment tax credit when claiming this credit for the same project. Companies must invest a minimum of \$100,000 per project/location during the tax year in order to claim the credit.

Tier Location	Tax Credit	Credit for Recycling, Pollution Control or Defense Conversion Activities
Tier 1	5%	8%
Tier 2	3%	5%
Tier 3 or 4	1%	3%

For a taxpayer with a manufacturing or telecommunications facility in a rural county located in a tier 1 county or tier 2 county that has purchased or acquired qualified investment property in a taxable year beginning on or after January 1, 2020 (which is then claimed on an income tax return in the taxable year after the purchased or acquired taxable year), the excess investment tax credit may be used to offset withholding as provided in the investment tax credit regulation. The taxpayer must receive preapproval as provided in DOR’s regulation to use the excess credit against withholding. A taxpayer that has investment tax credit carry forward for qualified investment property that was purchased or acquired in a taxable year beginning before January 1, 2020, may request preapproval to use such investment tax credit carry forward against withholding tax if certain requirements are met; this provision is repealed on December 31, 2024. The taxpayer must receive preapproval as provided in DOR’s regulation to use the credit carry forward against withholding. The total amount of tax credits preapproved to be used against withholding tax for taxpayers in rural counties located in tier 1 and tier 2 counties and for taxpayers to use investment tax credit carry forward against withholding together shall not exceed \$1 million per taxpayer per calendar year and \$10 million for all taxpayers per calendar year.

This credit should be claimed on Form IT-IC and accompanied by the approved Form IT-APP. For more information, refer to O.C.G.A. §§48-7-40.2, 40.3, and 40.4.

TAX CREDITS (continued)

- 107 Optional Investment Tax Credit.** Taxpayers qualifying for the investment tax credit may choose an optional investment tax credit with the following threshold criteria:

Designated Area	Minimum Investment	Tax Credit
Tier 1	\$ 5 Million	10%
Tier 2	\$10 Million	8%
Tier 3 or 4	\$20 Million	6%

Taxpayers must apply (use **Form OIT-APP**) and receive approval before they claim the credit on their returns. The credit may be claimed for 10 years, provided the qualifying property remains in service throughout that period. A taxpayer must choose either the regular or optional investment tax credit. Once this election is made, it is irrevocable. The optional investment tax credit is calculated based upon a three-year tax liability average. The annual credits are then determined using this base year average.

The credit available to the taxpayer in any given year is the lesser of the following amounts:

- (1) 90% of the excess of the tax of the applicable year determined without regard to any credits over the base year average; **or**
- (2) The excess of the aggregate amount of the credit allowed over the sum of the amounts of credit already used in the years following the base year.

The credit must be claimed on **Form IT-OIC**. For more information, refer to O.C.G.A. §§48-7-40.7, 40.8, and 40.9.

- 109 Low Income Housing Credit.** This is a credit against Georgia income taxes for taxpayers owning developments receiving the Federal Low Income Housing Tax Credit that are placed in service on or after January 1, 2001. Credit must be claimed on Form IT-HC and accompanied with Federal Form K-1 from the providing entity and a schedule of the building allocation. For more information, refer to O.C.G.A. §48-7-29.6.

- 111 Business Enterprise Vehicle Credit.** This credit is for a business enterprise for the purchase of a motor vehicle used exclusively to provide transportation for employees. In order to qualify, a business enterprise must certify that each vehicle carries an average daily ridership of not less than four employees for an entire taxable year. This credit cannot be claimed if the low and zero emission vehicle credit was claimed at the time the vehicle was purchased. For more information, refer to O.C.G.A. §48-7-40.22.

- 112 Research Tax Credit.** A tax credit is allowed for research expenses for research conducted within Georgia for any business or headquarters of any such business engaged in manufacturing, warehousing, and distribution, processing, telecommunications, tourism, broadcasting or research and development industries. The credit shall be 10% of the additional research expense over the "base amount," provided that the business enterprise for the same taxable year claims and is allowed a research credit under Section 41 of the Internal Revenue Code of 1986. For tax years beginning on or after January 1, 2009, the base amount calculation is based on Georgia gross receipts instead of Georgia taxable net income. (Note that for tax years beginning before January 1, 2009, the base amount must contain positive Georgia taxable net income for all years.) The credit may not exceed 50% of the business' Georgia net income tax liability after all other credits have been applied in any one year. Any unused credit may be carried forward 10 years. Excess research tax credit earned in taxable years beginning on or after January 1, 2012, may be used to offset withholding as provided in the research tax credit regulation. This credit should be claimed on Form IT-RD. For more information, refer to O.C.G.A. §48-7-40.12.

- 113 Headquarters Tax Credit.** Companies establishing their headquarters or relocating their headquarters to Georgia prior to January 1, 2009 may be entitled to a tax credit if the following criteria are met: 1) At least fifty (50) headquarters jobs are created; and 2) within one year of the first hire, \$1 million is spent in construction, renovation, leasing, or other cost related to such establishment or reallocation. Headquarters is defined as the principal central administrative offices of a company or a subsidiary of the company. The credit is available for establishing new full-time jobs. To qualify, each job must pay a salary which is a stated percentage of the average county wage where the job is located: Tier 1 counties at least 100%; Tier 2 counties at least 105%; Tier 3 counties at least 110%; and Tier 4 counties at least 115%. The company has the ability to claim the credit in years one through five for jobs created in year one and may continue to claim newly created jobs through year seven and claim the credit on each of those jobs for five years. The credit is equal to \$2,500 annually per new full-time job meeting the wage requirement or \$5,000 if the average wage of all new qualifying fulltime jobs is 200% or more of the average county wage where new jobs are located. The credit may be used to offset 100 percent of the taxpayers Georgia income tax liability in the taxable year. Where the amount of such credit exceeds the taxpayer's tax liability in a taxable year, the excess may be taken as a credit against such taxpayer's quarterly or monthly withholding tax. To claim the credit against withholding, a business must file Form IT-WH as provided in the headquarters tax credit regulation or as instructed by the Commissioner. This credit should be applied for and claimed on Form IT-HQ. For more information, refer to O.C.G.A. §48-7-40.17.

TAX CREDITS (continued)

investment tax credits. NOTE: Base year port traffic must be at least 75 net tons, five containers, or 10 TEU's. If not, the percentage increase in port traffic will be calculated using 75 net tons, five containers, or 10 TEU's as the base. Companies must meet Business Expansion and Support Act (BEST) criteria for the county in which they are located. The tax credit amounts are as follows for all Tiers: An additional job tax credit of \$1,250 per job; investment tax credit of 5%; or optional investment tax credit of 10%. Companies that create 400 or more new jobs, invest \$20 million or more in new and expanded facilities, and increase their port traffic by more than 20% above their base year port traffic may take both job tax credits and investment tax credits. The credit is claimed by filing the appropriate form for the applicable credit (job tax: Form IT-CA; investment tax: Form IT-IC or optional: Form IT-OIC) with the tax return and providing a statement with port numbers to verify the increase in port traffic. For more information, refer to O.C.G.A. §48-7-40.15. For tax years beginning on or after January 1, 2010, the following changes apply:

1. "Base year port traffic" means the amount of imports and exports during the second preceding 12-month period. For example, if the taxpayer is trying to claim the credit for 2010, they would compare 2009 to 2008 and if the increase is more than 10% they would qualify. NOTE: Base year port traffic must be at least 75 net tons, five containers, or 10 TEU's. If not, the percentage increase in port traffic will be calculated using 75 net tons, five containers, or 10 TEU's as the base.

- 130 Quality Jobs Credit.** For tax years beginning on or after January 1, 2009, a taxpayer creating at least 50 "new quality jobs" may be entitled to a credit provided certain conditions are met. A "new quality job" means a job that: 1) Is located in this state; 2) Has a regular work week of 30 hours or more; 3) Is not a job that is or was already located in Georgia regardless of which taxpayer the individual performed services for; 4) which pays at or above 110 percent of the average wage of the county in which it is located; and 5) For a taxpayer that initially claimed the credit in a taxable year beginning before January 1, 2012, the job has no predetermined end date. The credit amount varies depending upon the pay of the new quality jobs. The credit must be claimed within one year instead of the normal three-year statute of limitation period. The taxpayer may claim the credit in years one through five for new quality jobs created in year one and may continue to claim newly created new quality jobs through year seven and claim the credit on each of those new quality jobs for five years. The credit may be used to offset 100 percent of the taxpayer's Georgia income tax liability in the taxable year. Where the amount of such credit exceeds the taxpayer's tax liability in a taxable year, the excess may be taken as a credit against such taxpayer's quarterly or monthly withholding tax. To claim the credit against withholding, a taxpayer must file Form IT-WH as provided in the quality jobs tax credit regulation or as instructed by the Commissioner. For a taxpayer that initially qualifies to claim the credit in a taxable year beginning on or after January 1, 2016, the term "taxpayer" means any person required by law to file a return or

Such election shall be irrevocable and must be made on the initial qualifying return (on Form IT-QJ) or within one year of the earlier of the date the initial qualifying return was filed or the date such return was due, including extensions. In the event such election is made, such disregarded entities shall not be separately eligible for the credit. Also, if the first date on which the taxpayer, pursuant to the provisions of Code Section §48-7-101, withhold wages for employees in this state occurs in a taxable year beginning on or after January 1, 2017, the taxpayer has two years to employ at least 50 persons in new quality jobs in this state instead of the prior one-year period. In 2017 the statute was changed to provide that only a taxpayer that completes the creation of a qualified project in a taxable year beginning on or after January 1, 2017 is eligible to begin a subsequent seven-year job creation period. For a taxpayer that initially qualifies to claim the credit in a tax year beginning on or after January 1, 2020, the 50 new quality jobs requirement is reduced if the jobs are located in a rural county as defined in the statute. For taxable years beginning in 2020 and 2021, taxpayers that claimed the quality jobs tax credit in a taxable year beginning on or after January 1, 2019 and before December 31, 2019, have the option to utilize the number of new quality jobs that the taxpayer claimed in the taxable year beginning on or after January 1, 2019 and before December 31, 2019; or calculate the number of new quality jobs based on the number of new quality jobs created and maintained in that respective tax year. For a taxpayer that initially qualifies to claim the credit in a taxable year beginning on or after January 1, 2023, the term "taxpayer" means any person required by law to file a return or to pay taxes, except that any taxpayer may elect to consider the jobs within its disregarded entities, as defined in the Internal Revenue Code, for purposes of calculating the number of new quality jobs created by the taxpayer, and except that organizations exempt from tax pursuant to Code Section 48-7-25 are "taxpayers" only to the extent that a trade or business operated by such organization generates unrelated business income as defined in Section 512 of the Internal Revenue Code. Such taxpayers qualify to claim the credit only for the projects and investments related to such trade or business and can only elect jobs for such trade or business to qualify as new quality jobs. For more information, refer to O.C.G.A. § 48-7-40.17.

The tax credit, in addition to the tax credit under O.C.G.A. § 48-7-40, shall be limited to an amount not greater than 50 percent of the taxpayer's state income tax liability which is attributable to income derived from operations in this state for that taxable year.
