

INSTRUCTIONS**Filing Due Date**

Returns and payments are due the 20th day following the close of the reporting period.

On page 1, report gallons of gasoline and aviation gas in the gasoline column. Diesel fuel may include kerosene or jet fuel, but clear and dyed gallons should be reported in separate columns. All fuels reported should be identified by product codes on the appropriate schedule.

If you are also licensed as a distributor of Liquefied Petroleum Gas or Special Fuels, you will receive a separate distributor tax return for that fuel type. Do not combine your gasoline and fuel oil report with your Liquefied Petroleum Gas and Special Fuel report. Special Fuels include any energy source other than Liquefied Petroleum Gas.

For tax reporting purposes, if fuel is moved across state lines the distributor must report it either as an import or an export.

Receipts

1. Beginning Physical Inventory – This figure should agree with your distributor closing physical inventory from the previous report.
2. Gallons received outside Georgia. Enter the total number of gallons imported from each state on the appropriate line. If the state of import is not listed, use “Other.” **Complete Schedule 3.**
3. Enter all tax free motor fuel received. Use the appropriate column for each fuel type. **Complete Schedule 2.**
4. Enter all fuel brought into your inventory on which the Georgia tax has been paid under the appropriate column. **Complete Schedule 1.**
5. Enter all gallons of product that could be blended, compounded, or denatured with any other Motor Fuel defined above. **Include this on Schedules 1, 2, or 3 but keep separate from the Motor Fuel totals.**
6. Total of Lines 1-5.

Disbursements

7. Fuel exported to the other states. Enter the total number of gallons exported to each state on the appropriate line. If the state you exported to is not listed, use “Other.” **Complete Schedule 7.**
8. Enter any tax-free sales made to any U.S. Government entity. **Complete Schedule 8.**
9. Enter all tax-free sales to licensed distributors. Remember that an exchange is a sale in the State of Georgia. **Complete Schedule 6.**
10. Enter only fuel sold to exempt entities and fuel used by you in an exempt manner. Do not enter any fuel sold to a licensed distributor, the U.S. Government, or exports to other states on this line. **Complete Schedule 10.**
11. Enter all gallons of product that could be blended, compounded, or denatured with any motor fuel defined above. **Keep separate from Motor Fuel totals.**
12. Take credit for your purchases of tax-paid fuel by entering your sales and/or use of tax-paid fuel in the appropriate column.
- 13a. Enter only those gallons taxed at \$.01 per gallon to licensed aviation gasoline dealers. **Complete Schedule 5X.**
- 13b. Enter total gallons you have used or sold to an unlicensed aviation gasoline dealer on which the \$.263 per gallon is due. **Complete Schedule 5.**
14. Enter total taxable Sales/Use of all of Schedules of Disbursement (Schedule 5) by fuel type for gallons delivered and tax collected, except for Aviation Gasoline which is reported on Lines 13a and 13b.
15. Enter total gallons sold to State, County (Cty), and Municipal (Muni) Governments on which state excise tax is due. **Complete Schedule 5X.** Sales made to these Government entities with active distributor licenses should be entered on Line 9.
16. Enter all motor fuel on hand in Georgia at the end of the calendar month.
17. This is the total of Lines 7-16.
18. Same as Line 6.
19. If Line 18 is greater than Line 17, enter the difference in parenthesis to indicate a shortage. If Line 17 is greater than 18, enter the difference without parenthesis to indicate an overage.
