## How to Use the 2012 Motor Vehicle Millage Rate Manual

Millage rates applicable to each tax district in the State, where obtainable, have been prepared and listed. These tax districts and rates are listed alphabetically by county. The following rates have been compiled based on data submitted and certified by each county to the Department of Revenue, Motor Vehicle Division as being true and accurate. Millage rates applied to motor vehicles for any given year is, by law, to be equal to the past year's millage rate for other types of property.

Information contained in this manual was the most accurate data at the time of printing. Contacting a county office (see our web page for a complete listing) may be necessary when verifying questionable millage rates. In districts where no tax rates were certified, at the time of the printing of this manual, no millage rate is listed.

All rates are expressed in dollars per thousand.

To determine the amount of tax due on a particular vehicle or manufactured home; determine the assessed value; the county where the tax is due; the appropriate tax district in the county; and multiply the millage rate by the assessed value.

This is a work product of the State of Georgia, Department of Revenue, Motor Vehicle Division. Updates and corrections to the **2012 Motor Vehicle and Non-Homesteaded Manufactured Housing Millage Rate Manual** are added as necessary to our file on our web page at: <http://motor.etax.dor.ga.gov/forms/motor.aspx> .
