

Georgia Department of Revenue Motor Vehicle Bulletin Alternative Fuel Vehicles – Annual Licensing Fees Effective: July 1, 2017

Under Georgia law, certain Alternative Fuel Vehicles are subject to annual licensing fees. These fees must be adjusted each year according to a statutory formula based on the percentage increase or decrease in average motor vehicle fuel efficiency as measured by the United States Department of Energy and the Consumer Price Index. The purpose of this bulletin is to announce the updated fee amounts.

Effective July 1, 2017, the annual Alternative Fuel Vehicle licensing fees set out below must be paid at the time of initial registration or renewal of all qualifying vehicles. The following Alternative Fuel Vehicle fees will apply to all registrations that begin on or have a renewal date of July 1, 2017.

Commercial Motor Vehicle Fee: \$312.20

Non-Commercial Motor Vehicle Fee: \$208.13

These fees apply to the following vehicles:

- Vehicles that operate solely on electricity, regardless of whether the owner uses an alternative fuel vehicle license plate.
- Plug-in hybrid-electric or flex fuel vehicles (such as E-85), but only if those vehicles have elected an alternative fuel vehicle license plate.

These fees do not apply to the following vehicles:

- Vehicles that operate primarily on compressed natural gas, liquefied natural gas, or liquefied petroleum gas.
- Hybrid-electric vehicles that are not plug-in hybrid-electric vehicles.

FOR MORE INFORMATION

The Alternative Fuel Vehicle licensing fees are published annually and posted to the Department of Revenue website each year. Should you have any questions regarding this bulletin, please visit our website at <http://dor.georgia.gov/> or call the Motor Vehicle Division call center between 8:00 a.m. to 4:30 p.m., EST, Monday through Friday, excluding holidays, at 1-877-406-5221.
