Georgia Department of Revenue Receives GTA Honor

The Georgia Technology Authority announced that the Georgia Department of Revenue received top honors for its Exadata project.

The projects selected by the evaluation committee will be honored at a luncheon as part of the annual Georgia Digital Government Summit on Tuesday, September 22. The luncheon will take place at the Westin Buckhead, 3391 Peachtree Road, N.E., in Atlanta. More information about the Summit and the awards ceremony will be available later this summer.

Calvin Rhodes, Executive Director of the GTA, stated "On behalf of GTA, I want to extend my congratulations to the agencies whose projects were selected to receive top honors. I also want to express my deepest appreciation to everyone who took time from their busy schedules to nominate a project. The quality of the projects clearly places Georgia as a leader in the use of technology to make government more responsive, efficient and accountable."
