

2025

PROPERTY TAX ADMINISTRATION ANNUAL REPORT

GEORGIA DEPARTMENT OF REVENUE
2024 ANNUAL REPORT

Frank M. O'Connell
State Revenue Commissioner

Georgia Department of Revenue
2595 Century Parkway, NE | Atlanta, Georgia 30345

January 17, 2025

Governor Brian P. Kemp
The Georgia General Assembly
The Department of Agriculture
The Georgia Agricultural Statistical Service
The State Forestry Commission
The Department of Natural Resources
The University of Georgia Cooperative Extension Service
The House Committee on Ways and Means
The House Committee on Natural Resources and Environment
The Senate Committee on Agriculture and Consumer Affairs
The Senate Committee on Finance

Greetings:

I am pleased to provide the Georgia Department of Revenue 2024 Property Tax Administration Annual Report. This report has been developed by the Department for the purpose of fulfilling the Commissioner's responsibility pursuant to the requirements of O.C.G.A. §§ 48-5-349.5, 48-5-7.1, 48-5-7.4 and 48-5-7.7. It is hoped that this document will enhance understanding of Property Tax Administration in Georgia.

The staff of the Local Government Services Division and I look forward to working with you and are available to provide more information or clarification of this report upon request. A copy of this report is also available at <https://dor.georgia.gov/local-government-services/digest-compliance-section/property-tax-administration-annual-report>

Respectfully submitted,

Frank M. O'Connell
State Revenue Commissioner

Highlights of the Annual Report

Digest Review

The Revenue Commissioner continues to ensure uniformity and equalization between and within counties using the same procedures enacted in 1992, and in the manner prescribed in Article 5A of Chapter 5 of Title 48.

O.C.G.A. § 48-5-8 was amended in 2010 so that over five years between 2011 and 2015 the state levy phased out. Beginning in calendar year 2016, the state levy for ad valorem tax purposes is zero.

In 2016, the statutory deadline for submitting the annual property tax digests changed from August 1st to September 1st. See O.C.G.A. § 48-5-205. Sixty-seven (67) counties submitted their 2023 tax digest by the September 1st deadline, and fifty-two (52) out of 159 counties submitted their 2024 digest by the September 1st deadline. The Department continues to encourage counties to achieve compliance with the law governing the digest submission due date.

- Of the 53 counties falling in the 2023 digest review year, which underwent extensive review, twenty-eight (28) counties' ad valorem tax digests failed to meet state standards for approval. Three (3) of the 2023 review year digests were subject to the \$5.00 per parcel penalty, with one with the potential for a reduced penalty due to a first amended and restated consent order.
- Assessed values increased from \$606.1 billion in 2022 to a \$705.2 billion in 2023 for a 16% increase from the values reported in 2022. The 2024 average millage rates of the counties which were submitted and approved are as follows: 10.595 for county incorporated, 10.483 for county unincorporated, and 14.827 for county school.
- Several graphs showing the trend of the level of assessment, uniformity, and assessment bias can be found on Figures 1 - 3 of this report.

Performance Review

In 2000, legislation was passed which provided that county governing authorities, by resolution, could request that the Commissioner conduct a performance review of the county board of tax assessors. Upon receipt of such a request, the Commissioner appoints a Performance Review Board consisting of three members: one member who is an employee of the Department of Revenue, and two members who serve as county chief appraisers. Once appointed, the Performance Review Board performs a thorough and complete investigation of the board of tax assessors, including the technical competency of appraisal techniques and compliance with state law and regulations, and issues a report of its findings to the governing authority.

Since 2004, the Department has completed Performance Reviews of 37 county boards of tax assessors. Additional information and a list of the counties where performance reviews have been performed can be found in the section on **Performance Reviews of County Boards of Tax Assessors**.

Public Utilities

- The statewide average **equalization ratio**¹ for public utility property increased from 35.94% in 2023 to 36.58% for tax year 2024.
- Equalization ratios for seventy-nine (79) of the 159 counties accepted were proposed at a ratio less than 40% for tax year 2024.
- Figure 14 reflects the growth in the Public Utility Digest since 2018.
- A chart showing the trend of the state proposed average equalization ratio for public utility property since 2018 can be found beginning on Figure 15 of this report.
- Figure 16 shows the fluctuation in the number of companies centrally assessed annually due to mergers, acquisitions, or companies ceasing to conduct business in Georgia.

¹**Equalization Ratio** - the level of assessment of centrally assessed property proposed by the State Board of Equalization and equal to the level of assessment of all other property valued by the local county board of tax assessors. O.C.G.A. § [48-2-18](#).

Preferential Agricultural Assessment

Since the implementation of **Preferential Agricultural Assessment**² in 1984, the program continued to grow through tax year 2001. Since that time, the number of taxpayers participating in this special assessment program has steadily declined, a result of the increase in fair market values at the local level and the advantages of Conservation Use Valuation.

Tables 6 and 7 and Figures 17 and 18 depict the impact of Preferential Agricultural Assessment.

Conservation Use Valuation

Since the implementation of **Conservation Use Valuation**³ in 1992, the number of parcels in this program has risen steadily. The number of parcels enrolled in the program for 2023 is 187,084, representing the elimination of approximately \$12 billion in value and total **tax shift**⁴ of approximately \$306 million. These values are expected to increase as county boards of tax assessors perform revaluations.

Tables 8 and 9 and Figures 19 and 20 depict the impact of Conservation Use Valuation.

Forest Land Protection Act of 2008

The Georgia Forest Land Protection Act of 2008 provides current use assessment for tracts of forest land consisting of 200 or more acres if the property owner enters a covenant.

One significant difference between this program and the Conservation Use Assessment is the provision for the General Assembly to make an annual appropriation for forest land conservation use assistance grants to counties to offset the tax shift resulting from properties entered in this program. The grant formula is designed to reimburse local governments for one half of revenue reduction on the first 3% of digest value and 100% of the amount of revenue reduction that exceeds 3% of digest value.

Table 10 shows the number of properties enrolled in this program for 2023; the dollar amount of the revenue shift; and the amounts of grants due to local governments.

² **Preferential Agricultural Assessment** - Bona fide agricultural property assessed at 75 percent of the assessment of other property or at 30% of fair market value. O.C.G.A. §§ 48-5-7 and 48-5-7.1.

³ **Conservation Use Valuation** - Bona fide agricultural property assessed at current use value rather than fair market value and developed by the Department in accordance with O.C.G.A. § 48-5-269.

⁴ **Tax Shift** - Providing property tax relief to a particular class of taxpayers through valuation reductions or exemptions, resulting in a higher tax burden for other classes of taxpayers. For example, agricultural property owners qualifying for Conservation Use Assessment are afforded an exemption equal to the difference between fair market value and current use value, while the property of residential, commercial, industrial, and other classes of taxpayers is assessed at fair market value only. Therefore, the other classes of taxpayers are bearing more of the tax burden.

Timber Taxation

Timber harvest values reported on the 2023 digests increased from \$780.8million in 2022 to \$885.8 million in 2023.

Timber harvest values and revenue trends can be found on Figures 21 and 22 and Table 11.

Unclaimed Property

The responsibility for the administration of this program is also handled by the Local Government Services Division. The Disposition of Unclaimed Property Act (the Act) protects the rights of owners of abandoned property and relieves those holding the property of the continuing responsibility to account for the property. The type of property that is subject to the Unclaimed Property Act consists of wages, company liquidation proceeds, safe deposit boxes, money orders, uncashed checks, traveler checks, stocks and bonds.

Under the Act, when someone holds property (holder) that belongs to someone else (lost owner) but has lost contact with the owner for a specified period (holding period), that holder must turn over (remit) the property to the State. The State serves as the custodian for any property remitted under the Act, allowing the owners or their heirs an opportunity to claim their property in the future.

The information provided includes a five-year history on deposits, locatable deposits, and paid claims.

Figures 23 and 24 depict the trends within the Unclaimed Property Program.

Summary

The Department desires to provide the legislature with all information necessary for the proper evaluation of legislative impacts and promulgation of property tax policies. It fully supports the initiatives of the General Assembly in providing tax relief to the elderly, authorizing special assessment programs, and exemptions for certain categories of property, providing homeowner tax relief grants, and providing increased homestead exemptions that return value to the citizens of Georgia.

Reporting Requirements

The Commissioner's responsibility for continuing to provide the General Assembly with the impact of property tax administration and continued enactment of laws created by legislation and administered by the Department of Revenue, Local Government Services Division, are as follows:

O.C.G.A. § 48-5-342 requires examination of the digest of each county to ensure that all property valuations are reasonably uniform and equalized among the counties and within the counties.

O.C.G.A. § 48-5-349.5 requires a status report on this review process along with the Commissioner's observations regarding the progress of the counties in ad valorem tax administration.

O.C.G.A. § 48-5-7.1 requires submission of a report showing the fiscal impact of the law providing for the preferential assessment of tangible real property devoted to agricultural use. Qualified farm property is assessed under this program at 75% of the value which other tangible real property is assessed, and this report analyzes the effect of this program on taxpayers and levying authorities.

O.C.G.A. § 48-5-7.4 requires a report showing the fiscal impact of the law providing for conservation use assessment of certain agricultural properties attendant with this Code section. Qualified farm property is assessed at its current use value based upon a table of values established by the Commissioner following specific legal procedures. This report analyzes the adverse fiscal impact, if any, on other taxpayers and levying authorities.

O.C.G.A. § 48-5-7.7 requires a report showing the fiscal impact of the law providing for current use assessment of properties enrolled in the Forest Land Protection Act of 2008 program attendant with this Code section. Qualified forest land property is assessed at its current use value based upon a table of values established by the Commissioner following specific legal procedures. This report analyzes the adverse fiscal impact, if any, on other taxpayers and levying authorities.

Digest Review Procedures

The Commissioner has been given the statutory duty in Article 5A of Chapter 5 of Title 48 to review county tax digests and provide guidance to county boards of tax assessors when adjusting property valuations to ensure uniformity and **equalization**⁵ of assessments for all property owners. The Commissioner has delegated the authority and responsibilities under these statutes to the Local Government Services Division.

O.C.G.A. § 48-5-304 prohibits the Commissioner from approving any digest where the value in dispute exceeds certain stated thresholds or where evidence exists that the county substantially failed to comply with laws regarding valuation of property.

As directed by the legislature, the Commissioner has adopted a digest review cycle in which each county's tax digest is reviewed extensively to determine the level of assessment, uniformity and equalization in each property class.

In any given year, one third of the county tax digests undergo extensive statistical testing. Counties which do not meet the criteria as set forth in the statute and regulations are allowed an opportunity during the three-year cycle to correct any deficiencies by the next review year. The other counties that are not being extensively reviewed are examined for level of assessment to equalize the state levy and public utility assessments. The Commissioner approves a county's digest as being reasonably uniform and equalized if it meets certain standards.

For those digests submitted by counties in their digest review year, the Commissioner completes his review on or before August 1 of the following tax year or within 30 days of the date the ratio study results are provided by the State Auditor. Based upon this review, the Commissioner will approve a digest when it is found to be reasonably uniform and equalized by having met the following state standards:

- The average level of assessment for each class of property meets the mandated state standard of 36% to 44%;
- The average measure of overall equalization, the **coefficient of dispersion**⁶, meets the state standard of 15% or less for residential properties and 20% or less for all other property classes; and
- The bias ratio, or statistical measure of **price related differential**⁷, meets the state standard of 95% to 110%.

⁵**Equalization** – the adjustment of assessed property values in a taxing district in order to align the values with the actual sales price.

⁶**The Coefficient of Dispersion** - the statistical representation of equalization.

⁷**The Price Related Differential** - the statistical measure of assessment bias. This demonstrates whether lower- or higher- priced properties are more accurately assessed.

Annually, one third of the counties are subject to measuring additional standards of statistical compliance. When measuring this compliance, the Commissioner utilizes information provided by the State Auditor from the sales ratio studies developed for each county. Each county's ratio study measures the statistical standards for level of assessment, uniformity, and equalization.

The Commissioner conditionally approves the digest and assesses a penalty of \$5 per taxable parcel of real property if a county's review year digest contains the same or similar deficiencies as the previous review year digest.

The 2023 digest review process was completed as directed in O.C.G.A. § 48-5-343. As noted on Table 1, the review of the fifty-three (53) counties that fell within the 2023 review year indicated that twenty-eight (28) counties were deficient. Of those twenty-eight (28) counties which were deficient, there were three (3) counties assessed the \$5 per parcel penalty for failure to correct prior digest deficiencies.

Table 1: Review-Year Counties Cited for Deficiencies shows that 28 review year counties were deficient.

* Subject to a potentially reduced penalty due to an amended and restated consent order.

Figure 1: Average Level of Assessment is the average Median Ratio from 2019 to 2023.

Figure 2: Average Level of Uniformity is for all classes of property, as measured by the Coefficient of Dispersion, and indicates the equality of assessments. The acceptable range for residential properties is 15% or below and all other classes of property is 20% or below.

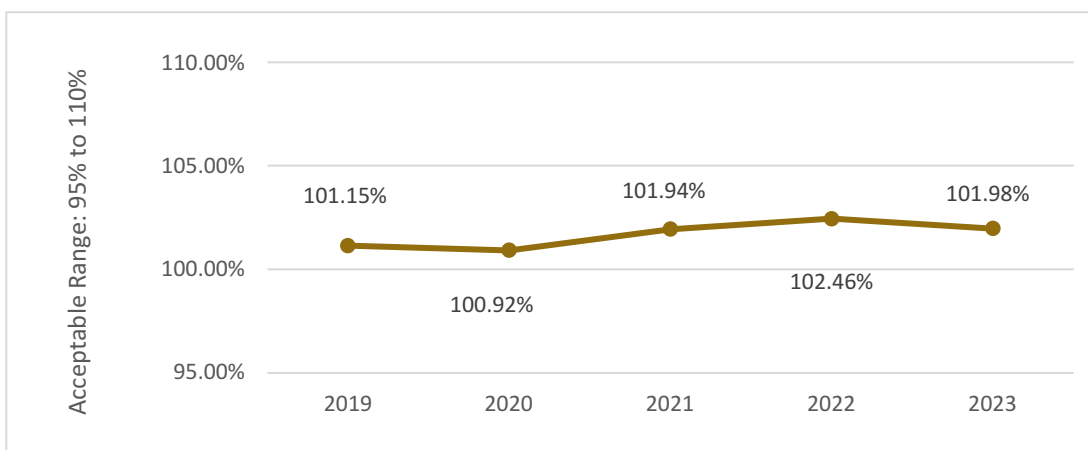

Figure 3: Average Level of Assessment Bias is average level of assessment bias as measured by the Price Related Differential.

Value and Revenue

Since the implementation of the current digest review procedures, counties have been performing either total or partial revaluations or updates to property valuations to conform to the state standards for acceptable digests. Property values continue to increase in digest year 2023.

Figure 4: Total Assessed Value shows the changes in property values since 2013.

Figure 5: Average Millage Rate for County Incorporated since 2020.

Figure 6: Average Millage Rate for County Unincorporated since 2020.

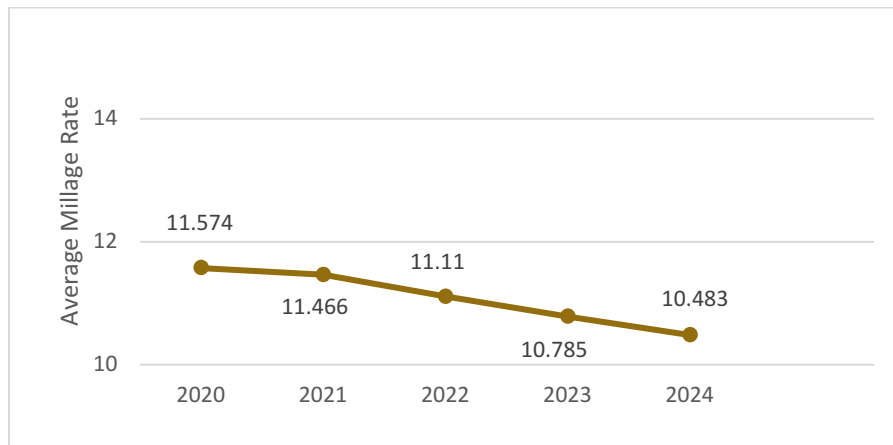

Figure 7: Average Millage Rate for County School since 2020.

Table 2: 2024 Property Tax Millage Rates shows the County Incorporated mill rates. Figures are shown for calendar years 2020-2024. Not all 2024 digest have been submitted and approved at the time of publication.

Property tax continues to be the primary revenue source for local governments. Currently, approximately \$18.3 billion in revenue is collected from property taxes in Georgia. Because the Department's involvement in the collection of city taxes is limited, the information below does not include taxes levied and collected for municipalities.

Figure 8: Comparison of Total Revenue shows the total revenues collected from property taxes in Georgia.

Figure 9: 2023 Percentage of Total Revenue by Tax Type shows the percentage of the total ad valorem taxes levied for county and school purposes.

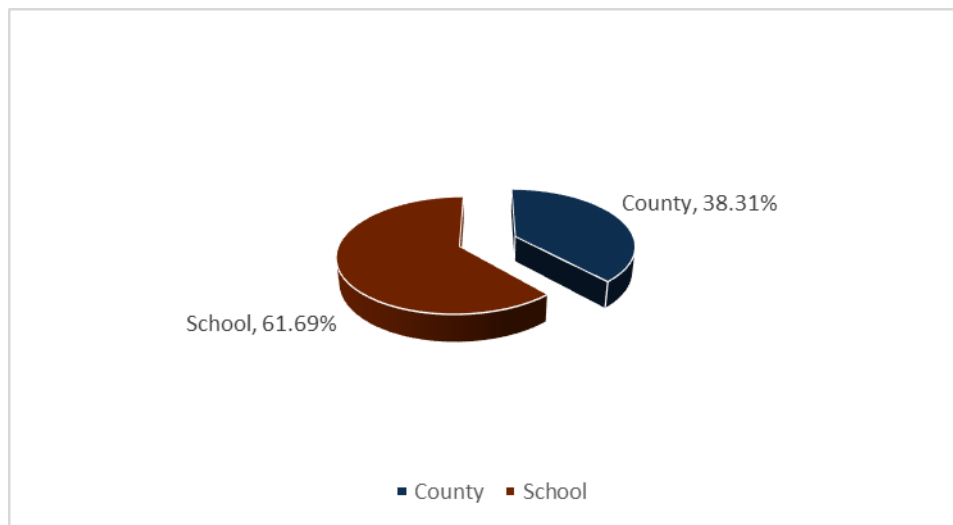

Figure 10: 2023 County Tax Revenue by Property Class shows the amount of tax revenue generated from the various classes of property for county property tax revenue in millions of dollars.

Figure 11: Five-Year Comparison of County Tax Revenue shows the amount of tax revenue levied for 2023 for county tax purposes and a five-year comparison.

Figure 12: 2023 School Tax Revenue by Property Class shows the amount of tax revenue generated from the various classes of property for board of education tax purposes in millions of dollars.

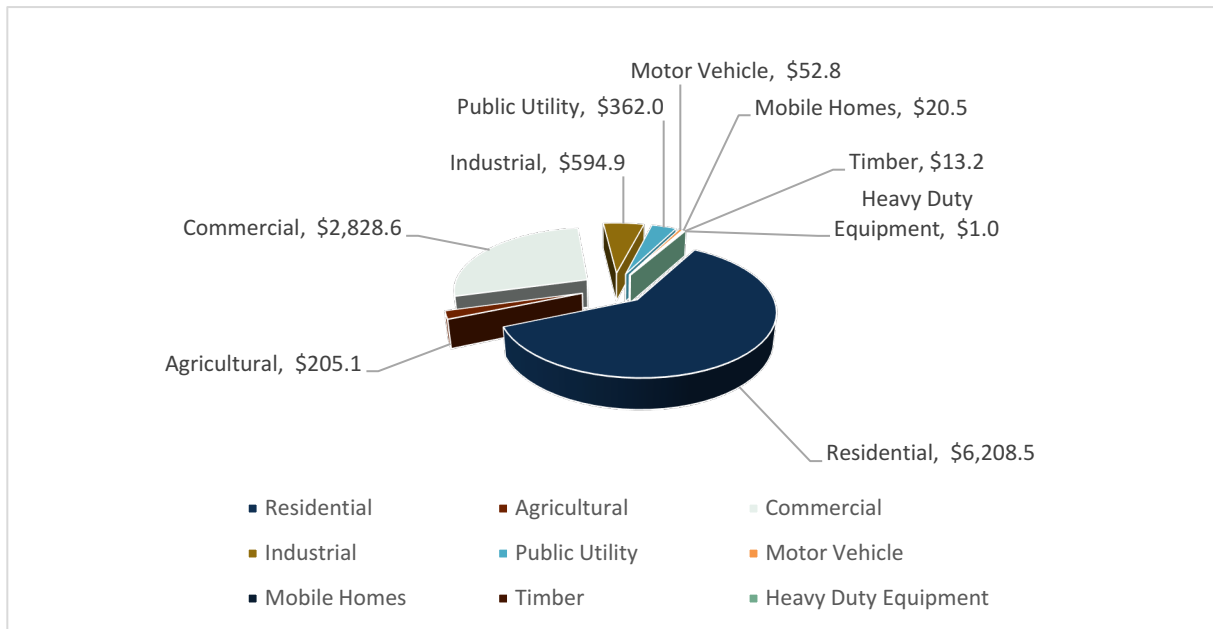

Figure 13: Five-Year Comparison of Total School Tax Revenue shows the amount of tax revenue and a five-year comparison for school tax purposes.

Performance Reviews of County Boards of Tax Assessors

In 2000, legislation was passed which provides that county governing authorities, by resolution, can request that the Commissioner conduct a Performance Review of the county board of tax assessors. Such resolution shall be transmitted to the commissioner who shall appoint an independent performance review board within 30 days after receiving such resolution.

Upon receipt of such a request, the Commissioner appoints a Performance Review Board consisting of three (3) members: one (1) member, who is an employee of the Department of Revenue, and two (2) members, who serve as chief appraisers in counties other than the county being reviewed.

Once appointed, it is the duty of the performance review board to make a thorough and complete investigation of the county board of tax assessors with respect to all actions of the county board of tax assessors and appraisal staff regarding the technical competency of appraisal techniques and compliance with state law and regulations, including the Property Tax Appraisal Manual.

The performance review board shall issue a written report of its findings to the Commissioner and the county governing authority which shall include such evaluations, judgments, and recommendations as it deems appropriate.

Public Utilities

O.C.G.A. § 48-2-18 requires the Commissioner to annually propose assessments for public utility property and to ensure that these properties are assessed at the same overall average assessment level as other property in the county. Each utility company is required to annually return its properties indicating location, description, type of property and valuation. The Commissioner's staff inspects these returns to ensure the accuracy of each utility company's declarations, and the State Board of Equalization must approve the digest of public utility values and equalization ratios prior to notification to the counties and the public utility companies. The State Board of Equalization at the time the 2023 digest was approved was comprised of State Revenue Commissioner Frank O'Connell, State Auditor Greg Griffin, and Marty Smith, Director of the State Properties Commission.

In determining each county's proposed assessed public utility values for 2024 the Commissioner utilized the equalization ratios developed by the State Auditor based on the results of the sales ratio study performed on the 2023 tax digest. This method ensures that proposed public utility values are set at the same overall average assessment level as other properties.

Once the State Board of Equalization approved these values, proposed equalization ratios and assessments were issued to the counties and utility companies. Each county board of tax assessors then determined the final assessment of utility properties by either accepting the State's proposed equalization ratio or substituting the board's own ratio upon issuing assessment notices to the utility companies.

The Department appraised these properties utilizing recognized and publicly available financial reference data to determine the reported net worth of public utility companies in an effort to eliminate bias concerning the actual unit value of each company. These nationally recognized financial sources included Kroll, Standard & Poor's, and Value Line, making the process less subjective and more transparent.

Figure 14: Change in Public Utility Digest Value shows the digest history since 2018.

Figure 15: Trend of Average Proposed Public Utility Equalization Ratios shows the trend of the statewide proposed public utility equalization ratios.

Figure 16: Number of Public Utility Companies by Year shows the numbers of companies that are centrally assessed on an annual basis.

Table 5: 2023 Ratios Used to Propose 2024 Public Utility Assessments shows each county's proposed equalization ratio from the Department of Revenue for assessment of its public utility properties.

Preferential Agricultural Assessment

In the 1983 legislative session, O.C.G.A. § 48-5-7.1 was passed establishing preferential assessment of tangible real property devoted to bona fide agricultural purposes. By statute, all real property is assessed at 40% of fair market value. However, the 1983 legislation provided for a 30% level of assessment or 75% of the value at which other taxable real property is assessed. The decrease in the level of assessment creates a **tax shift**⁸ from those taxpayers taking advantage of this special assessment program to those taxpayers who cannot qualify for special treatment in the same manner, just as any exemption for one class of taxpayers shifts the tax burden to another class of property owners.

In making application for preferential assessment, qualifying taxpayers must sign a covenant (contract) agreeing to continuously maintain the property in agricultural pursuits for a period of ten (10) years. Transfers of ownership are allowed, provided the property is transferred to another qualifying entity that agrees to continue the property in agricultural pursuits for the remainder of the covenant period. Otherwise, the covenant has been breached and a penalty must be imposed. Penalties range from five (5) times the tax savings if the breach occurs during the first year of the covenant, to a minimum of two (2) times the tax savings if the breach occurs during the tenth year of the covenant.

⁸**Tax Shift** - Providing property tax relief to a particular class of taxpayers through valuation reductions or exemptions, resulting in a higher tax burden for other classes of taxpayers. For example, taxpayers in the preferential tax assessment program are afforded an exemption equal to the difference between an assessment of 40% of fair market value and 30% of fair market value. In contrast, the property of residential, commercial, industrial, and other classes of taxpayers is assessed at 40% of fair market value only. As a consequence, the other classes of taxpayers are bearing more of the tax burden.

Table 6: Preferential Agricultural Assessment Fiscal Impact shows the total number of parcels, the total dollar tax shift, and the percentage change of each category since 1990. The number of parcels that were in the program was highest in 1997 and has been steadily declining since that time.

Figure 17: Preferential Agricultural Total Tax Dollar illustrates the amount of tax dollars shifted as a result of the Preferential Agricultural Assessment program for the last ten (10) years.

Figure 18: Preferential Agricultural Assessed Value Eliminated illustrates the amount of assessed value eliminated as a result of the Preferential Agricultural Assessment program for the last ten (10) years.

Conservation Use Valuation

In 1991, the Legislature embraced the “current use” valuation concept by providing for the assessment of certain qualifying properties based on current use value rather than fair market value. The legislation also provided for the Commissioner to annually develop a table of current use values to be used in all counties. The table of current use values is based upon a specific formula which takes into account the amount of income the land is capable of producing when growing certain crops and timber and factors found in market data using only farmer-to-farmer land sales. The data is grouped into nine agricultural districts in Georgia.

Unlike the Preferential Agricultural Assessment Program, in which assessments are based on 30% of fair market value rather than 40%, the valuation of property in Conservation Use Covenants is most significant in the urban areas of north Georgia and other parts of the State where strong residential and commercial development is occurring. As a result, agricultural landowners’ tax savings are generally greatest in these transitional areas.

The effect of this special assessment program is a **tax shift**⁹ from those taxpayers taking advantage of this special assessment program to those taxpayers who cannot qualify for special treatment, just as any exemption for one class of taxpayers shifts the tax burden to other classes of taxpayers. Several reports, graphs, and charts are being included in this report to show the fiscal impact of Conservation Use Valuation.

⁹**Tax Shift** - Providing property tax relief to a particular class of taxpayers through valuation reductions or exemptions, resulting in a higher tax burden for other classes of taxpayers. For example, agricultural property owners qualifying for Conservation Use Assessment are afforded an exemption equal to the difference between fair market value and current use value, while the property of residential, commercial, industrial, and other classes of taxpayers is assessed at fair market value only. As a consequence, the other classes of taxpayers are bearing more of the tax burden.

Table 8: Conservation Use Fiscal Impact represents the ten (10) counties, ranked by total tax shift, most affected by Conservation Use Assessment. The table lists, by county, the number of applications (parcel count), assessed value eliminated from the digest, amount of tax shift for each of the tax types, and the total tax shift.

Figure 19: Conservation Use Tax Shift illustrates the amount of tax shift created annually from digests affected by the Conservation Use Valuation program since 2019.

Figure 20: Conservation Use Assessed Value Eliminated illustrates the amount eliminated annually from the tax digests affected by the Conservation Use Valuation program since 2019.

Forest Land Conservation Use

The Georgia Forest Land Protection Act of 2008 (FLPA) provides for current use valuation of property primarily used for the good faith subsistence or commercial production of trees, timber, or other wood and wood- fiber products.

FLPA provides for current use value rather than fair market value. The bill also provided for the Commissioner to annually develop a table of current use values to be used in all counties. The table is based upon a legislated formula which takes into account the amount of income the land is capable of producing when growing timber and factors found in market data using comparable sales with and for the same existing use.

This covenant allows preferential assessment of forest land of two hundred (200) or more acres in aggregate, consisting of parcels of at least one hundred (100) acres, owned by an individual or individuals or by any entity registered to do business in Georgia. For tax year 2023, a covenant breach is subject to a penalty in an amount equal to two (2) times the tax savings.

The effect of any special assessment program is a **tax shift**¹⁰ from those taxpayers taking advantage of this special assessment program to those taxpayers who cannot qualify for special treatment, just as any exemption for one class of taxpayers shifts the tax burden to other classes of taxpayers. To lessen the fiscal impact on local taxing jurisdictions there is a grant component associated with this program. A grant is paid to the taxing authorities to reimburse up to one half of the first 3% of revenue loss and 100% of the revenue loss over 3% as a result of taxpayers enrolling property in this program. Several reports, graphs, and charts show the fiscal impact of Forest Land Conservation Use Valuation.

¹⁰**Tax Shift** - Providing property tax relief to a particular class of taxpayers through valuation reductions or exemptions, resulting in a higher tax burden for other classes of taxpayers. For example, agricultural property owners qualifying for Conservation Use Assessment are afforded an exemption equal to the difference between market value and current use value, while the property of residential, commercial, industrial, and other classes of taxpayers is assessed at fair market value only. As a consequence, the other classes of taxpayers are bearing more of the tax burden.

Table 10: Forest Land Conservation Use Valuation Assessment for Tax Year 2023 lists each county and the number of parcels receiving Forest Land Conservation Use Assessment, the amount of value eliminated from the taxable digest in each county, the gross tax dollar shift for County and School, the amount of the reimbursement grant payable to the County and School and the net tax shift for the taxing jurisdictions after the application of the grant. This table does not include amounts payable to municipalities or special taxing districts.

Tax District	Parcel Count	FLPA Acreage	FLPA Assessed Value (J-Value)	FLPA Adjusted Value (F-Value)	FLPA Exempt. (SJ-Value)	Adj. Assessed Value Reduction	Millage Rate	FLPA Grant Calculation

Taxation of Standing Timber

For ad valorem tax purposes, standing timber is taxed only once following its harvest or sale at 100% of fair market value. It is subject to taxation even if the land underneath is exempt, unless taxation has been prohibited by federal law or treaty.

Standing timber is defined to include softwood and hardwood, pulpwood, chip and saw logs, saw timber, poles, posts, and fuel wood. Standing timber does not include orchard trees, ornamental or Christmas trees, byproducts of harvesting (bark or stumps), and fuel wood harvested by the owner which is used exclusively for heating the owner's home. The taxation of standing timber is triggered at the time of the "sale" of standing timber for harvesting separate and apart from the underlying land. Timber is not taxed if it is included in a simultaneous sale of a tract of land and the timber thereon.

Figure 21: Statewide Timber Values shows the trend in value and revenue since 2017.

Figure 22: County and School Revenue from Timber shows the trend in value and revenue since 2017.

Table 11: 2022 Timber Revenue Reported on 2023 Tax Digests shows 100% total of sales and harvests of timber reported for 1st, 2nd, 3rd, & 4th quarters of 2022.

Georgia's Unclaimed Property Program

Georgia's Unclaimed Property Program has a team of dedicated professionals who provide customer service to holders and owners of abandoned property. The program annually receives unclaimed property from corporations, banks, insurance companies, local governments, and state agencies. The lost property represents uncashed checks, money orders, stocks, bonds, accounts, or safe deposit boxes. The program has an active outreach program to locate owners of lost property.

Unclaimed Property Receipts

For Fiscal Year 2024, the program received more than \$264 million dollars in unclaimed funds. Along with the funds, the holders are required to furnish reports which include lost owner information such as name, last known address, account number, or social security number. Once the reports have been processed, owner information is made available on the Department of Revenue's website for an owner search.

Figure 23: Unclaimed Property Receipts for 2024 show the unclaimed funds received since 2019.

Unclaimed Property Paid Claims

Each year, Georgia's Unclaimed Property Program returns property to its rightful owners. Through the claim process, owners and abandoned property are reunited. Potential owners may submit a claim online or contact a customer service representative by telephone. Claim forms can be mailed, emailed or faxed. Each claim request is researched to determine the rightful owner. In Fiscal Year 2024, the program returned more than \$55 million and 100,603 shares of stock to lost owners. The number of claims paid increased from 33,121 in FY23 to 76,093 in FY24.

The program's customer representatives are available Monday through Friday from 8:00 am to 4:30 pm at 1-855-329-9863. The web address for the online search is located at dor.georgia.gov.

Figure 24: Unclaimed Property Paid Claims for 2024 shows the claims paid since 2019.
