

**GEORGIA FILM PRODUCTION TAX CREDIT  
GENERAL GUIDELINES  
12/14/2018**

The following chart represents expenditures that apply only to the film production portion of the Film Tax Credit codified in Code Section 48-7-40.26 (not to the interactive entertainment portion of the Film Tax Credit). This chart **does not apply** to the Postproduction Film Tax Credit (codified in Code Section 48-7-40.26A, effective January 1, 2018), or the Musical Tax Credit (codified in Code Section 48-7-40.33, effective January 1, 2018). Any qualified production expenditures claimed under the Postproduction Tax Credit or Musical Tax Credit are not eligible for the Film Tax Credit. The Georgia Department of Revenue has determined the expenditures listed herein are generally "directly used" in a qualified production activity, as defined by Georgia Regulation 560-7-8-.45, subject to the following overarching guidelines:

- 1 Actual facts and circumstances. The actual facts and circumstances of the transaction may change the determination.
- 2 All expenditures must meet any applicable Georgia Department of Economic Development rules included in Chapter 159-1-1.
- 3 Loanout Companies. All payments to loanout companies for services provided are subject to 6% withholding unless the payment is for reimbursement of expenses that are not required to be included in the loan out withholding amount.
- 4 Georgia Vendor requirement - Goods. All purchases and rentals of tangible personal property used in the production must be from a qualified Georgia Vendor as defined by Regulation 560-7-8-.45.
- 5 Georgia Vendor requirement - Services not at the filming site. All services that are not provided at the filming site must be provided by a Georgia vendor as defined by Regulation 560-7-8-.45 and can be included only to the extent the service is performed in Georgia.
- 6 Other expenses. Other expenses must meet any applicable statutory and regulatory requirements.

This chart is intended to provide a guideline regarding the qualification of certain expenditures incurred during the production of a project in Georgia. Not all potential qualified expenditures are listed and account numbers/categories are for example purposes only. Each production company may require a different numbering or categorization system for budgeting and accounting purposes.
